Paul Butler Associates secure permission for four new homes in Didsbury

Salford-based planning, development and heritage advisors Paul Butler Associates have secured planning permission for four detached homes in Didsbury, South Manchester on behalf of Median Homes Ltd.

Located in the extensive grounds of a large nineteenth century house that is set to be retained as part of the scheme, each new home will include four or five bedrooms, a kitchen, a dining room, two living rooms, a double garage and front and rear gardens. The proposals also include solar photovoltaic (PV) roof panels and rainwater harvesting.

Tom Flanagan, Director at Paul Butler Associates said:

'We have worked closely with Manchester City Council, West Didsbury Residents Association and local people to create a well-designed and sustainable scheme that fits well with its surroundings. The new houses will provide much needed larger homes for families in this part of South Manchester'.

The scheme was designed by Stockport-based architects Cartwright & Gross.
